ASWIN PULICKAL BINDURAJ

Neuendorfer Str. 17, 56070 Koblenz Germany | (+49)15510823207 |
Aswinpulickal.professional@gmail.com | **LinkedIn** | **GitHub**| **Portfolio**

PROFESSIONAL SUMMARY

Full Stack Developer and M.Sc. student at the University of Koblenz, specializing in React.js, Django, and AI integration. Proven track record in building ML-driven applications and implementing Generative AI (LLMs) solutions. Expert in bridging complex backends with modern frontends and managing cloud deployments. Actively seeking a remote Working Student position to build impactful data products.

TECHNICAL SKILLS

- **Languages:** Python (Django, Flask), JavaScript (React.js, Node.js, Express, TypeScript)), SQL, HTML5, CSS3
- **Data & AI:** Machine Learning, NLP, LLMs, Pandas, NumPy, Scikit-learn, Matplotlib, TensorFlow
- **Data Analysis & Visualization:** Microsoft Excel, Google Sheets, Power BI, Matplotlib
- **DevOps & Cloud:** Docker, AWS (EC2), Git, CI/CD, TDD, Nginx, Celery, Redis
- **Databases:** PostgreSQL, MySQL, SQLite, MongoDB

PROFESSIONAL EXPERIENCE

Backend Developer Intern | **Calvergy** – Aachen, Germany (Remote) *Dec 2025 – Feb 2026*

- Designed and implemented **scalable RESTful APIs** in **Python** and **Django** within an agile team, ensuring clean, maintainable code through **Test-Driven Development (TDD)** and collaborating on deployments using Docker and Git.
- **Optimized database schemas** and complex queries to streamline data extraction, reducing **data retrieval latency** by 20% for high-volume API endpoints.

Data Science Specialist Intern | Luminar Technolab – Kochi, India *Mar 2024 - Nov 2024*

- Analyzed **15,000+ operational and customer records** using predictive modeling and sentiment analysis (up to **92% accuracy**) to identify **revenue trends and performance indicators.**
- Built clear **Power BI dashboards** to visualize analytical findings and support **data-driven decision-making**, alongside managing AWS cloud deployments.

Software Developer Intern | Soft Solutions – Kochi, India *Feb 2020 - Aug 2020*

(Note: Proactively completed consecutive full-time internships to transition into tech during COVID-19 university admission delays, before starting my BCA).

- Developed scalable full-stack web solutions using **Python,** supporting **500+ daily active users** and ensuring **99.9% database** uptime.
- Conducted rigorous software testing and debugging, achieving **95% code coverage** and **reducing production bugs by 30%.**

Full-stack Developer Intern | LCC Computer Education – Aluva, India *Jul 2019 - Jan 2020*

- Built responsive frontend interfaces using React.js and Django, **reducing page load times by 40%** through optimized component rendering.
- Developed and integrated RESTful APIs using Django REST Framework (DRF), enabling seamless data communication between the React.js frontend and PostgreSQL database.

EDUCATION

M.Sc. in E-Government (Web Science Track) | University of Koblenz, Germany, Oct 2024 - Present (Expected Sep 2027)

- Focus Areas: Data Science, Network Analysis, Process Management (BPM), Public Sector Digitization.

Bachelor of Computer Applications (BCA) | Mahatma Gandhi University, Kottayam, India, *Nov 2020 - May 2023*

- Final Grade: **A (Top Tier)**
- Key Modules: Advanced Statistical Methods **(Grade: A+)**, Operations Research **(Grade: A).**

CERTIFICATIONS

Certified Data Scientist – National Council for Technology and Training (Nov 2024)
Certificate in Data Science (Python) – Luminar Technolab **(Grade: A+)**
Certificate in Python Full Stack Development – LCC Computer Education **(Grade: A+)**

KEY PROJECTS

- **EV Range Simulator** | **Live Demo** | **GitHub**
  - Developed a Full-stack ML application using **FastAPI** and **React** to predict electric vehicle range degradation.
  - Integrated an **XGBoost** model utilizing real-time environmental telemetry and geospatial data for high-accuracy predictions.
- AI Career Path Predictor | **Live Demo** | **GitHub**
  - Developed a Full-stack application using **Django** and **React** that integrates **Google Gemini AI** to provide automated career stability analysis and personalized transition roadmaps.
  - Engineered a predictive scoring engine with **Scikit-learn** and managed end-to-end deployment on **Render/Vercel**, including complex API configurations and environment management.

LANGUAGES

- **English:** Full Professional Proficiency (C1)
- **German:** Limited Working Proficiency (B1)
- **Malayalam:** Native

Koblenz,04.03.2026
